

ALL RECYCLING TO BENEFIT

STEPHANIE'S TOTAL RECOVERY

Stephanie was once a vibrant young woman. Hardworking, intelligent, caring, she enjoyed traveling, remodeling, attending concerts and helping others.

In March 2006 she rapidly went from functional to severely disabled. Over the past 8 years she's gone undiagnosed for several years and once diagnosed she could not get effective treatment, UNTIL NOW!!!!

A recent and alarming decline in her health prompted her to find help where full recovery from Central Nervous System Lyme disease happens!

Please contribute to her fund NOW so that she may get all the needed testing, receive all required treatment, and return to us and LIVING LIFE to the fullest once more.
